ARTISTRY IN IRON

# New York

When the original York range was launched by Artistry in Iron Ltd in 1997 it was at the forefront of the movement that was to take the traditional skills of the wrought iron craftsman on a more contemporary journey. Now with the introduction of New York that journey is nearing completion and we can now offer you similar models with the minimalist

look that is the embodiment of the contemporary design brief in both domestic and contract settings. The combination of high sheen powder coated silver with sandblasted glass and the revised structure of the various models puts New York at the cutting edge of contemporary British furniture design. Of course, if you wish to retain a slightly more traditional feel to the

range, then our flexibility gives you the choice of our full range of metal finishes with tops in clear glass or a variety of timbers. Speak to us about other finishes for tops and metal frames as well as options to our standard calico seat fabrics.
